Re: *NSPS TT Incinerator Report*
Euramax International – AFIN 54-00132, Permit 1581-AR-4

To Whom It May Concern:

Per 40 CFR §60.465 and Air Permit #1581-AR-4 Specific Condition 6, Euramax International (Euramax) in Helena, Arkansas is reporting that during the first quarter of 2016 the Thermal Oxidizer (SN-04) operated above 1,141°F and at greater than 90 percent emission reduction. Note that a new Thermal Oxidizer system was installed in July 2011. Compliance testing was completed on July 22, 2011. No periods of incinerator temperature drop, as defined under §60.464(c), and no exceedances of the applicable VOC limit, have occurred. Our records are kept onsite and are available for your review upon your request. Please note that reports are only required semiannually, but Euramax has chosen to submit this report on a quarterly basis. Please contact me at (870) 572-5074 x3234 if you have any questions.

Sincerely,

EURAMAX INTERNATIONAL

Re: *NSPS TT Incinerator Report*
Euramax International – AFIN 54-00132, Permit 1581-AR-3

To Whom It May Concern:

Per 40 CFR §60.465 and Air Permit #1581-AR-3 Specific Condition 6, **Euramax International** (formerly **Amerimax Coated Products**) is reporting that during the fourth quarter of 2015 the Thermal Oxidizer (SN-04) operated above 1,141°F and at greater than 90 percent emission reduction. Note that a new Thermal Oxidizer system was installed in July 2011. Compliance testing was completed on July 22, 2011. No periods of incinerator temperature drop, as defined under §60.464(c), and no exceedances of the applicable VOC limit, have occurred. Our records are kept onsite and are available for your review upon your request. Please note that reports are required semiannually, and Euramax is submitting this letter to meet the notification requirement. Please contact me at (870) 572-5074 x3234 if you have any questions.

Sincerely,

EURAMAX INTERNATIONAL

Re: *NSPS TT Incinerator Report*
Euramax International – AFIN 54-00132, Permit 1581-AR-3

To Whom It May Concern:

Per 40 CFR §60.465 and Air Permit #1581-AR-3 Specific Condition 6, Euramax International (formerly Amerimax Coated Products) is reporting that during the second quarter of 2015 the Thermal Oxidizer (SN-04) operated above 1,141°F and at greater than 90 percent emission reduction. Note that a new Thermal Oxidizer system was installed in July 2011. Compliance testing was completed on July 22, 2011. No periods of incinerator temperature drop, as defined under §60.464(c), and no exceedances of the applicable VOC limit, have occurred. Our records are kept onsite and are available for your review upon your request.
